Gil Walsh Interiors enjoys the perfect 'design' for payroll, time and attendance

Gil Walsh has built her success on amazing interior design. Her extraordinary eye for detail and use of unique colors and textures make each home she decorates beautiful.

Gil has led over $200 million in interior design work over her 40-year career. Today, she's the founder and owner of the decade-old Gil Walsh Interiors, with offices in Jupiter, Florida, and Martha's Vineyard.

Six years ago, Gil hired Cathi Spiel to be the Director of Finance for the growing 14-employee company. Spiel arrived at Gil Walsh Interiors and quickly recognized the need to move away from inefficient manual, paper-based check-cutting for payroll to an automated process.

When the company adopted the RUN powered by ADP® platform, they managed payroll electronically to simplify the process. But they needed more, so they enhanced their ADP payroll platform by integrating with **QuickBooks Time (formerly TSheets)** for an automated time and attendance solution.

With the combination of QuickBooks Time and RUN powered by ADP®, Spiel has more freedom to focus on more important finance-related issues. Rather than spending hours each week doing administrative tasks like managing payroll and preparing financial reports, she now can focus much of her time on more strategic challenges.

With more time on her hands, she's helping to build the business and generate more revenue by pre-qualifying potential new clients and reading over new client proposals.

"Our people did their research and everything pointed to QuickBooks Time," she said. "I liked it right away because it is so easy to use for both myself and our employees."

ADP Client: Gil Walsh Interiors, Jupiter, Florida

ADP Marketplace Partner: QuickBooks Time (formerly TSheets), Boise, Idaho

Business: QuickBooks Time is the leading time tracking and scheduling software for small-business owners who need to track employee time for payroll and invoicing. With go-anywhere functionality, employee scheduling, and GPS location tracking, QuickBooks Time is the No. 1 rated, requested, and reviewed mobile time tracking app on several major review hubs[1] QuickBooks Time was built for employees, but its seamless integrations with companies like RUN powered by ADP® can reduce payroll costs by up to 6% by eliminating manual and cumbersome payroll processes.[2] QuickBooks Time' five-star customer experience team is always available for free technical support.

ADP turned payroll into a smooth process

Spiel says ADP deserves praise for integrating QuickBooks Time and RUN. She recommends the combination for growing small businesses or anyone who, like her, needs to focus more on strategic work and less on administrative work.

When Gil Walsh Interiors adopted RUN powered by ADP® five years ago, it made sense, Spiel said. The firm was growing quickly, with eight or nine on staff at the time. So it was a very easy transition.

"It has made my job easier," she said. "In short order, everyone got used to it." At that point, however, there was still some manual work for reporting hours worked and scheduling. "Enter the QuickBooks Time application. Problem solved," Spiel said.

"I'm loyal to vendors that I truly believe in." she concluded. "It's working out great for us."

Build and manage a better workforce with integrated HR solutions from ADP approved partners like QuickBooks Time (formerly TSheets). – ADP MARKETPLACE.

"Now, the time that I devote in the day that I have to process payroll is minuscule compared to what I used to do," Spiel said, adding that the firm really likes the flexibility of the QuickBooks Time mobile app where employees can track time while on the go.

Each ADP Marketplace solution has passed a world-class security assessment to help safeguard the confidentiality & integrity of your employee data. Security Magazine Ranked ADP's Security Program 1st among all Business Services Organizations in 2017.**
