

**BERNIEPORTAL**  
A Bernard Health Production

## Peak Risk Adjustment Solutions

Founded in 2004, Peak Risk Adjustment Solutions is a health information management services company that provides customizable medical coding and compliance solutions, including retrospective and prospective risk adjustment coding services. The company, which has about 250 employees, has been a client of ADP® since February of 2015.

"We had been trying to get an online data connection established between payroll and Bernard Health, which operates the benefits platform we use for our employees," recalls Rebekah Michel, PHR, HRCP, Peak's Human Resources Director. "All we had to do was go to ADP Marketplace and purchase the 'BerniePortal' app. It gave us the connection we needed and is so easy to use."

She adds, "With the ADP Marketplace connection to the BerniePortal, you get the best of both worlds – the best payroll processing service provider in ADP and the peace of mind you find in Bernard Health's leading technology with BerniePortal to manage enrollments, carrier updates, and ACA requirements."

### Business Challenges

1. Implement an online solution that integrates payroll and benefits
2. Improve HR efficiency and workflow

### Solution

#### 1. Use A Convenient App That Enables Ease Of Use

The **BerniePortal** solution – available from **ADP Marketplace** partner, Bernard Health – provides all-in-one HR software supported by health insurance brokers nationwide. Using the portal, employers like Peak Risk Adjustment Solutions can manage their benefits plans, open enrollment, onboarding, and ACA compliance.

**ADP Client:** Peak Risk Adjustment Solutions, Inc., Tampa, Florida

**Industry:** Health Management Services

"Today, everything in HR is going real-time. You can shop the ADP Marketplace for apps that can really help you improve how you do things in so many ways ..."

"The BerniePortal is the launching pad for our employee benefits," says Michel. The app enables the seamless integration of pay data on the ADP Workforce Now platform and the benefits data at Bernard Health. The app also allowed a convenient direct connection between Peak's employees and selected benefits carriers. "Getting set up with the portal app took very little effort," she adds. "In just two clicks, I was connected."

## 2. Apply An Automated Solution That Drives Efficiency

Automation helps to enhance efficiency and productivity, improve workflow, and create incremental time-savings. Michel says that her HR group is benefiting from all of these.

"For example, using the portal app has enabled us to eliminate four steps when it comes to onboarding a new hire," says Michel. Although she has not formally calculated the precise amount of time-savings, Michel acknowledges, "having fewer steps in any HR process will save you time."

### The Added Value of ADP Marketplace

"Today, everything in HR is going real-time," says Michel. "You can shop on ADP Marketplace for apps that can really help you improve how you do things in so many ways – solutions like getting real-time employee feedback. I'd absolutely recommend ADP Marketplace. Look at the quality of the vendors. You can readily see ADP Marketplace is a place where you'd want to shop, especially if you're looking for leading-edge products and services," Michel concludes.

**Build and manage a better workforce with integrated HR solutions from ADP approved partners like Bernie Portal. – ADP MARKETPLACE.**
