

Is your business clocking-in higher performance & clocking out risk?

Australian workforce models are changing

1/5
of Australians would **sacrifice 10% of their annual income** in return for flexible work.

82%
of employees believe they will soon **define their own work schedule.**

This impacts your business

The introduction of new employment models enables **greater flexibility** for both employee and employer.

But, legacy tools and error-prone systems **struggle to support this transition.**

ADP helps you **integrate your payroll with time capture and rostering** to achieve stronger..

Efficiency

62%
of companies that **integrated** their workforce management systems to payroll said it **reduced their payroll error rate.**

Compliance

77%
of anonymous reports received by Fair Work were about rates of pay. **Stronger payroll compliance** mitigates risk.

Insight

Using **automated time, attendance & scheduling** systems can result in **8-20%** lower replacement costs.
