

Real-time access to employee data — synchronized across your HR systems

Easily integrate your HR data for a consistent employee view.

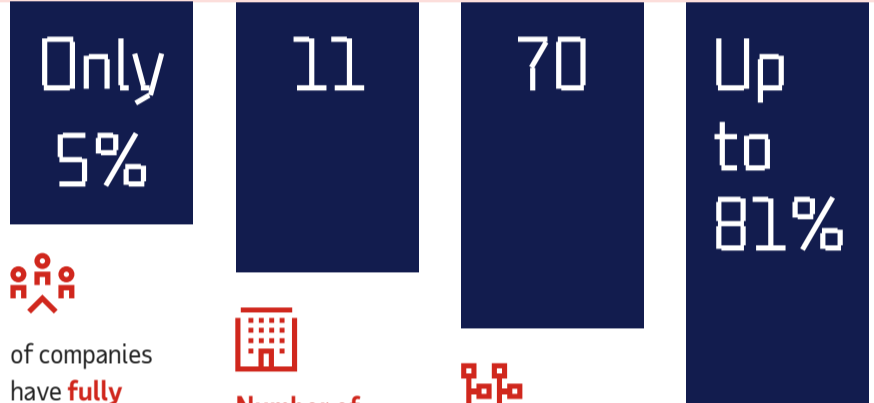

ADP Marketplace, a digital HR storefront, enables ADP® clients to build robust and customized solutions based on their specific needs. With access to almost 500 HR solutions, you can explore, try, buy and implement pre-built applications and data connectors from ADP and third-party partners.

Data connectors enable you to connect your employee data between ADP and some of today's most popular HR systems to get your work done. Unlock your data and connect with dozens of best-of-breed solutions* including:

- Bullhorn
- Oracle HCM
- gr8 People
- Newton ATS
- Taleo Business Edition
- BambooHR
- SAP SuccessFactors
- NetSuite
- SABA and more.

Only **5%** of companies have **fully integrated HR systems**.¹

11 Number of systems of record in the average company²

70 Connect your ADP platform with **70 of today's most popular HR solutions**.

Up to 81% of companies' HR implementation budgets are **spent on integration**.³

Data integration is easy: Explore, buy and implement, right from your desktop — with no coding or IT help required.

Using a data connector can help you:

Streamline your processes by syncing employee data fields.

Save time on manual admin work.

Reduce data errors and keep your employee data secure.

Choose the solutions that fit best for your unique needs.

Keep the systems you love and connect them to ADP.

About ADP Marketplace

As HR software continues to evolve, integrating your data will allow you to update your HR systems whenever you need to, as well as gives you instant access to the latest technology when you want it. Help save time and money, while using your data to drive performance and improve decision-making.

ADP Marketplace makes it easy. Learn more at adp.com/dataconnectors.
